## ABOUT ME

IT graduate with proven programming and communication skills. Successfully producing several projects through the course of diploma and degree. I enjoy learning through the challenges when being assigned the responsibility to execute the projects. I hope to become an experienced web developer in the next 3 years.

### Personal Strengths:

- *Highly committed in work especially with time constraint tasks.*
- *Able to converse verbally and written in both English and Malay.*
- *A highly effective team player and adaptive to various workplace environments.*
- *Flexible and agile with changing tasks, and a fast learner.*
